Mutawef

(Second Edition)

Hajj And Umrah Guide

1-Size of application is 1.42 MB.

2- Description:

Mutawef is a J2ME Mobile application that serves the Islamic Hajj in Hajj and Umrah it contains several tools and services to make Hajj and Umrah easier like

- Depilated Explanation of Hajj , Umrah and Zeyara ‘Nosoks’ like ‘Ifraad’, ‘Qiraan’ and ‘Tamattu’ based on daily activities needed to be done.
 - Comprehensive Warnings for the most common errors in every ‘Nosok’
 - Combined invocation (‘Doaa’) that is preferred to say with each ‘Nosok’
- E-Murawef Service goes with the Hajj step by step in every turn to give detailed explanation of what to do in this turn and also to remind them with the turns count.
- Prayer times in Makkah And Madina
- **Maps** for several places that Hajj can visit.
- **Illustrative Pictures** for several places like El-Kabaa ,Al Jamaraat and Safa & Marwa.
- **Location Services** that utilizes Makkah Maps to give the following Services
 - GPS.
 - Send your location to a friend.
 - Search for Hotels.
- **Residence Directory** contains details for more than 500 hotel and Rental, including its place on the Maps.
- **Governmental Services Directory.**
- **Hospitals Directory.**
- **Medical Guide.**

3-Background of the service:

Madar Al Parmaga have a wide experience in the field of Software development field and have a wide range of working application for all platforms and fields, we own also Media Production Company called Nourayn Media Production and we have agreement with Saudi STC for Mutawef destitution.

And here is a brief explanation for some of our products

- **Waleef:** Parental control with Arabic customer targeted culture we have issued 2 versions of it.
- **Nakaa:** Pornographic Image filtering application with many polymorphic uses like Pornographic Mail Blocking for enterprise mail boxes, Internet gateway pornographic traffic filtering and Parental control for pornographic web site detection and blocking.
- **News Magnet :**System For News Papers and Television Stations that gives news streaming reaches 250,000 title daily using more than 5000 web source categorized Geographical, Lingual ,by Source Activity and by logical categories. And have also automatic translation ability for the given news titles from and to different languages.
- **Ostazy:** E-Learning solution for preparing and presenting the courses and this system was custom made for Governmental Agencies in Kingdom Saudi Arabia.
- **Mutawef 2.0:** This is the second edition of the Mutawef software for mobile devices and after the success achieved with the previous edition (more than 300000 download) the company decided to improve the product with a rich set of tools and services to serve a wider range of customers and also deliver this version in 14 different languages.

We have also new applications which will be introduced to Qtel in near future with unique capabilities and innovative ideas.

4-The Application is supported by all mobile devices that Have Java MIDP 2.0 and tested on nearly all S60 Devices.

5-Screen Shots and explanations from Mutawef Interface you can visit the last section of this document.

6-Installation Instructions

Link for the software is <http://www.mutawef.com/mutawef2/mutawefliteQtel.dm> and the instructions is as follow

- Using your mobile handset navigate to the above mentioned link (don't download using PC browser it must be downloaded directly to the mobile handset).
- Wait until download finished.
- Save the downloaded file to a known place on the mobile.
- Navigate to the downloaded file using mobile file manager then click on it (at most it could be on installs directory).
- The Mobile will ask you if you want to install "Mutawef for Hajj And Umrah" click yes then Continue then continue.
- Select where to install the application.

- After installation finishes you will find Mutawef Icon within the applications folder.
- Click the Mutawef Icon in the Applications Folders.
- Mobile will ask you if you want Mutawef to start automatically you must press yes if you want to send your location to a friend service to work correctly.
- Mutawef Splash screen will appear and you can select any icon to start any of Mutawef services as explained in the program description point, the interface is straightforward and easy to use as explanation follows

Splash Screen Shows the Software Version And Logo Of Sponsor(s)

Main Menu of Mutawef Software you can navigate it using left and right arrows and you can also zoom in or out the user interface

By Clicking 'HAJJ' Icon the 'HAJJ' Screen appears with a selection list to select type of 'HAJJ' change selected item using up and down navigation keys then press fire of right option button to select an item

By Selecting type of 'HAJJ' you will get the 'NOSOK's screen you can change the day of 'HAJJ' by left and right navigation buttons and for every day you have a selection list with the 'NOSOK's required to be done in this day you can see any 'NOSOK' by pressing select key.

For every 'NOSOK' [Rites] you have screen with three sections

1. Rites: detailed explanation of the required activities to get this NOSOK done in right way.
2. Supplication: This gives the preferred supplication(s) in these rites.
3. Mistakes: gives the frequently marked mistakes in this kind of rites.

Press the associated tab number to get it's content displayed
3 for Rtes, 2 for Supplications and 1 for Mistakes.

By Clicking 'UMRAH' Icon the ' UMRAH' Screen appears with a selection list to select 'Umrah' 'NOSOK' required, change selected item using up and down navigation keys then press fire of right option button to select an item.

For every 'NOSOK' screen after this you can apply what learned from 'HAJJ' Section.

Like HAJJ and Umrah we provide you for detailed guide for Madina Visitation Also.

E-Mutawef: select it to give you step by step guide at Tawaaf.

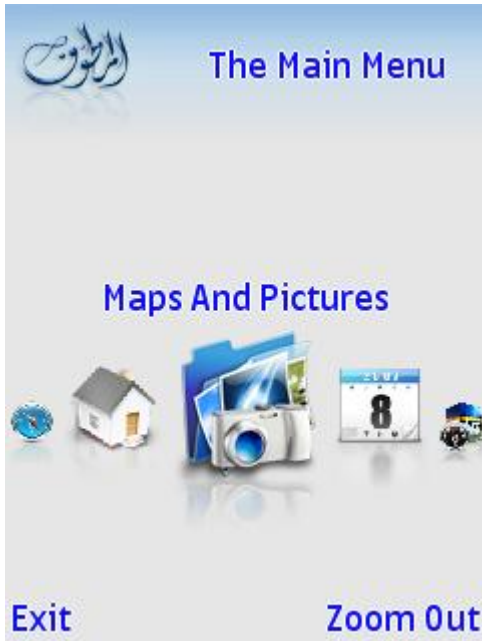

Tawaaf Aid: Gives you detailed explanation in every round for Rites And supplications.

Counter: Gives you a tool to not forget the number of round count during Tawaaf (which is urgent need of customers).

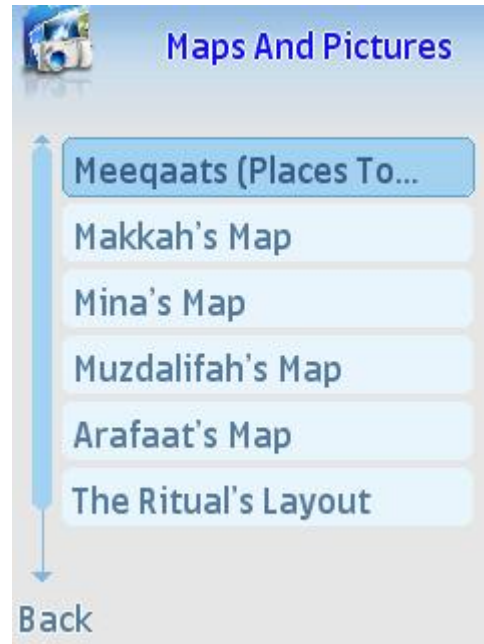

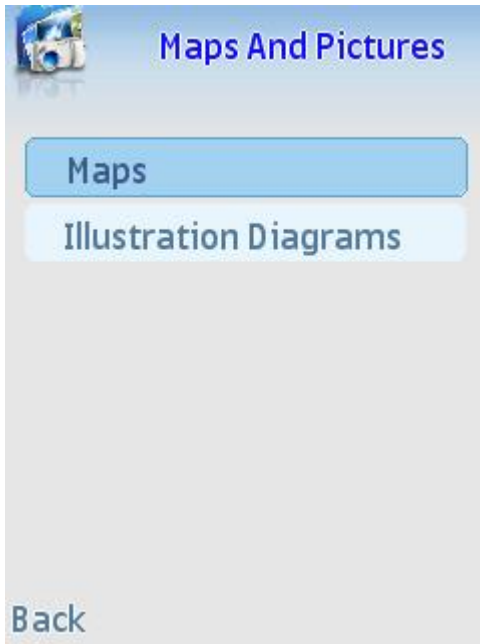

All: Gives you benefits of Tawaaf aid and counter in one screen.

Prayer Times: screen gives you the Prayer times every day in Makkah And Madina.

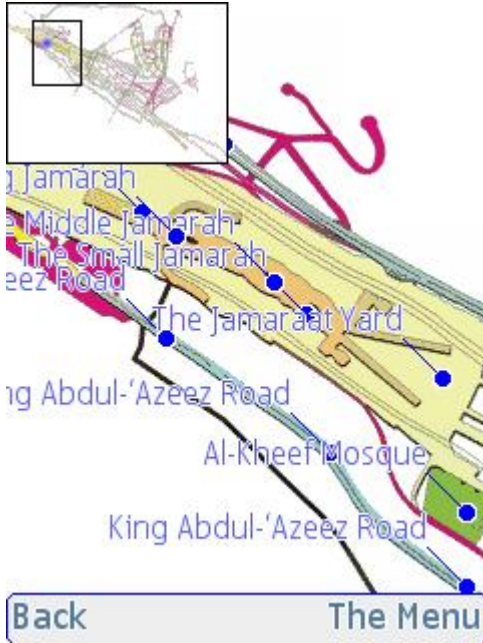

Maps And Pictures: screen gives you valuable geographical information plus interesting 3D illustration graphs for Hajj Rites and Places.
